Report: Report Quarterly

In this section we discuss report quarterly. The observed value was 55.1 compared to 39.1 in the prior period, a change of 14.1 percent. This reflects quarterly expenses across 8 units. In this section we discuss report quarterly. The observed value was 55.1 compared to 39.1 in the prior period, a change of 14.1 percent. This reflects quarterly expenses across 8 units. In this section we discuss report quarterly. The observed value was 55.1 compared to 39.1 in the prior period, a change of 14.1 percent. This reflects quarterly expenses across 8 units. In this section we discuss report quarterly. The observed value was 55.1 compared to 39.1 in the prior period, a change of 14.1 percent. This reflects quarterly expenses across 8 units.

In this section we discuss report quarterly. The observed value was 41.0 compared to 64.2 in the prior period, a change of -10.7 percent. This reflects tooling budget across 8 units. In this section we discuss report quarterly. The observed value was 41.0 compared to 64.2 in the prior period, a change of -10.7 percent. This reflects tooling budget across 8 units. In this section we discuss report quarterly. The observed value was 41.0 compared to 64.2 in the prior period, a change of -10.7 percent. This reflects tooling budget across 8 units. In this section we discuss report quarterly. The observed value was 41.0 compared to 64.2 in the prior period, a change of -10.7 percent. This reflects tooling budget across 8 units.

In this section we discuss report quarterly. The observed value was 1.0 compared to 22.7 in the prior period, a change of -17.8 percent. This reflects quarterly expenses across 3 units. In this section we discuss report quarterly. The observed value was 1.0 compared to 22.7 in the prior period, a change of -17.8 percent. This reflects quarterly expenses across 3 units. In this section we discuss report quarterly. The observed value was 1.0 compared to 22.7 in the prior period, a change of -17.8 percent. This reflects quarterly expenses across 3 units. In this section we discuss report quarterly. The observed value was 1.0 compared to 22.7 in the prior period, a change of -17.8 percent. This reflects quarterly expenses across 3 units.

In this section we discuss report quarterly. The observed value was 46.7 compared to 10.0 in the prior period, a change of -7.7 percent. This reflects travel policy across 4 units. In this section we discuss report quarterly. The observed value was 46.7 compared to 10.0 in the prior period, a change of -7.7 percent. This reflects travel policy across 4 units. In this section we discuss report quarterly. The observed value was 46.7 compared to 10.0 in the prior period, a change of -7.7 percent. This reflects travel policy across 4 units. In this section we discuss report quarterly. The observed value was 46.7 compared to 10.0 in the prior period, a change of -7.7 percent. This reflects travel policy across 4 units.

In this section we discuss report quarterly. The observed value was 14.9 compared to 12.7 in the prior period, a change of 17.4 percent. This reflects quarterly expenses across 3 units. In this section we discuss report quarterly. The observed value was 14.9 compared to 12.7 in the prior period, a change of 17.4 percent. This reflects quarterly expenses across 3 units. In this section we discuss report quarterly. The observed value was 14.9 compared to 12.7 in the prior period, a change of 17.4 percent. This reflects quarterly expenses across 3 units. In this section we discuss report quarterly. The observed value was 14.9 compared to 12.7 in the prior period, a change of 17.4 percent. This reflects quarterly expenses across 3 units.

In this section we discuss report quarterly. The observed value was 70.9 compared to 73.7 in the prior period, a change of -9.9 percent. This reflects travel policy across 2 units. In this section we discuss report quarterly. The observed value was 70.9 compared to 73.7 in the prior

period, a change of -9.9 percent. This reflects travel policy across 2 units. In this section we discuss report quarterly. The observed value was 70.9 compared to 73.7 in the prior period, a change of -9.9 percent. This reflects travel policy across 2 units. In this section we discuss report quarterly. The observed value was 70.9 compared to 73.7 in the prior period, a change of -9.9 percent. This reflects travel policy across 2 units.

In this section we discuss report quarterly. The observed value was 86.4 compared to 56.3 in the prior period, a change of -8.8 percent. This reflects quarterly expenses across 4 units. In this section we discuss report quarterly. The observed value was 86.4 compared to 56.3 in the prior period, a change of -8.8 percent. This reflects quarterly expenses across 4 units. In this section we discuss report quarterly. The observed value was 86.4 compared to 56.3 in the prior period, a change of -8.8 percent. This reflects quarterly expenses across 4 units. In this section we discuss report quarterly. The observed value was 86.4 compared to 56.3 in the prior period, a change of -8.8 percent. This reflects quarterly expenses across 4 units.
